The Shedding Dog

Does your dog leave fluffy tufts of love all over your house, furniture and clothing? We've got you covered! First we strip the excess undercoat from the dog, then we use Simple Shed Shampoo, followed by a Simple Shed Treatment that encourages the follicle to hold on to the remaining hair, and then we make it snow! We use a force dryer (not a heated dryer) to blow existing loose undercoat off of the dog. Ear cleaner, Eye Wash, Grooming Tools, Fresh Towels or Blowdryer, Cologne of Choice.

The Pampered Dog

For the most spoiled of dogs. We start with a Mudd Bath to condition the skin. Then you have a choice of shampoo (Lavender and Chamomile, Extreme Odor, Citrusil, Energy Plus, Hypo-Allergenic, Rainforest, Blueberry, Oatmeal and Aloe), Luxury Re-Moisturizer Conditioner. Then we move to a Blueberry Facial (think about where your dog's face is throughout the day, and where you like to give smooches). We will trim their nails, and then it's time for heated towels to dry off. What spa treatment would be complete without a tasty treat served on a silver platter!??
